

ABOUT US

Company Profile

Youhan Shoji Co., Ltd.

揚帆商事株式会社

YOUHAN

Turning solar power into an asset.

SOLAR ASSET COMPANY

One-stop operation, maintenance and asset management for solar power plants. Through both on-site expertise and technology, we elevate solar power from mere equipment to a genuine asset.

100+

Plants under O&M

38

2MW+

High-voltage

OUR MISSION

Raise the sail, toward the future of energy.

Our name “Youhan” (揚帆) derives from the Chinese phrase “揚帆起航” — to raise the sail and set out to sea. It expresses our resolve to hoist our sail amid the great tide of a new energy era and set sail toward the future together with our clients. We see solar power not as mere equipment but as an asset, and as a Solar Asset Company we support its entire lifecycle — from material procurement to plant operation, maintenance and the maximization of asset value — contributing to a sustainable society.

COMPANY PROFILE

Business	Import & sale of solar and grid-storage materials; O&M of solar power plants; related solar services
E-mail	info@youhanshoji.co.jp

Five Business Domains

From material supply (trading) at the core to O&M, investment and platforms — end to end.

01 Material Supply

TRADING

Procuring solar and grid-storage materials from Japan and abroad. PV cables & MC4 (S-JET, same-day shipping), modules, inverters, mounting and storage materials from domestic stock.

02 O&M

OPERATIONS & MAINTENANCE

Periodic inspection, remote monitoring and fault response, plus weeding and panel cleaning (RHINO equipment) — full on-site maintenance via our nationwide network.

03 Plant Investment

INVESTMENT

We invest in and hold solar power plants as group assets — including affiliates, 38 plants across low- and high-voltage — built on hands-on operating expertise.

04 PVMarket

PLATFORM

A data platform connecting plant owners with service providers to maximize revenue — operating-data visualization, service matching, analytics and reporting.

05 PVCABLE

ONLINE SHOP

Stable online supply of high-quality PV cables and MC4 connectors — the online storefront of our materials business.
